

**Walsh Family Chardonnay 2018**  
**Purcellville, Virginia**

Sarah and Nathan Walsh founded Walsh Family Wine in 2014. They have 50 acres of vines on five sites in Loudoun County. Nate's career began at Horton Vineyards in Gordonsville, Virginia before working at Oregon's Willamette Valley and New Zealand. He was then winemaker at Sunset Hills Vineyard in Purcellville before opening his own winery with Sarah, whose background is in fine dining and wine sales and education.

100% Chardonnay

**Domaine Roumagnac Fronton Ô Grand R 2016**

**Fronton, France**

Located 18 miles north of Toulouse, Domaine Roumagnac was founded in 1880 and since 2008 has been run by the fourth generation of the Roumagnac family. Half of the estate's 35 acres are planted in négrette grapes which are grown exclusively in the Fronton region (except for small amounts grown in California). Legend has it that the Knights Templar brought the grape to France from Cyprus. The two varietals in this wine come from the oldest vines on the estate and are separately vinified. They are blended just after fermentation and aged on the lees for 15-17 months.

50% Négrette, 50% Cabernet Sauvignon

**Bedrock Wine Co. Cabernet Sauvignon Montecillo Vineyard 2017**  
**Sonoma County, California**

Founded in 2007 by Morgan Twain-Peterson, Bedrock's mission is to preserve and rehabilitate old vineyards around California. Montecillo Vineyard sits at the top of the winding and rough Nelligan Road on the northern edge of the Moon Mountain District. Owned by Karin Lee, the vineyard contains some of the oldest remaining cabernet in California. Bedrock's block on the estate, planted at an elevation of 2000 feet in the 1960s, is dry-farmed on a widely spaced "California Sprawl" trellising system.

100% Cabernet Sauvignon

**Caraccioli Cellars Carbonic Fermentation Pinot Noir 2018**  
**Gonzales, California**

A family run winery, Caraccioli Cellars was founded in 2006 in the Santa Lucia Highlands of Monterey County. Grapes for this wine were harvested by hand on 11 September 2018, using small totes instead of large bins, to reduce pressure on the fruit. The whole-cluster grapes undergo carbonic fermentation or carbonic maceration (fermentation in a carbon dioxide-rich environment) before crushing. This process ferments most of the juice inside the grape, leading to wines low in tannins. This Beaujolais Nouveau-style wine was aged for just one month in neutral French oak and was bottled on 29 November 2018.

100% Pinot Noir

**Lovo Moscato Giallo**  
**Veneto, Italy**

*Terre Gaie* (Happy Lands) is a family operation directed by Salvatore Lovo, his wife Rita Ferasin, and their daughter Silvia. The estate is in the village of Vò at the western end of the *Colli Euganei* (Euganean Hills) in the heart of Veneto's wine production area. The winery produces about 150,000 bottles of high-quality estate-grown wine from the most favored hillsides of the region. The winery dates from 2004 and was built on the existing property of the Lovo and Ferasin families who have owned vineyards in Vò since the 18th century.

100% Moscato Giallo
